

Protect your investment with our Performance Promise.

Let us provide you with peace of mind by offering the best extended protection plan in the industry—the Coleman® Heating and Air Conditioning Performance Promise Protection Plan. It’s designed to ensure your home comfort system is running at peak performance—without expensive repair costs.

Your indoor air quality matters.

According to U.S. Environmental Protection Agency studies, indoor air can be more polluted than the air outside. And since most people spend up to 90 percent of each day inside, with more than half of that time at home, you can’t afford to overlook indoor air quality. Coleman® offers a range of products designed to eliminate mold, pollen and other pollutants; ventilate stale air; trap airborne particles; and regulate humidity. Talk to us for more details.

Comfort with a conscience.

The moment we lit our first outdoor lantern, more than 100 years ago, Coleman® has had a long-standing heritage with the environment. We believe in accessible sustainability—where everyone can have peace of mind with affordable, environmentally friendly products. Through Coleman® HVAC innovation, more than half of our products are ENERGY STAR® labeled and can cut energy use up to 60%.

When you see the Coleman® logo, you know you’re investing in more than a reliable home comfort system. You’re investing in the sustainability of the environment. Your environment. We call it comfort with a conscience.

We build your Coleman® unit in North America where we closely monitor and improve processes that directly affect quality. Because when it comes to your home comfort, we are committed to meeting the industry’s highest standards.

The Coleman® Echelon™ Series CP9C modulating gas furnace received the Consumers Digest Best Buy Award.

Coleman® Home Comfort Systems
Climate Solutions, Inc.

Iconic quality you can trust. That's what you get when your heating and cooling system comes from Coleman. For over 100 years, the Coleman® name has been synonymous with world-renowned quality and comfort. Our products are rigorously tested and built to the highest standards—delivering performance, efficiency and reliability you can count on. Our heritage, combined with our commitment to manufacturing innovative products, is what makes us the preferred choice of contractors and homeowners for generations.

Climate Solutions, Inc.: COMMITTED TO YOUR COMFORT

As a Coleman® HVAC contractor, it's important that your home comfort system fits your needs, your lifestyle and your budget. That's why we'll work with you every step of the way, beyond installation, to ensure your system runs smoothly for years to come. From heating to cooling to indoor air quality, we will specify an HVAC solution that will provide you with optimal comfort, exceptional energy savings and lasting performance.

- We provide an expert analysis of your family's comfort needs as the basis for our recommendations.
- We offer a wide product selection to ensure you get the right equipment at the right price.
- We employ trained service technicians who know how to work with you to meet your schedule and comfort needs.
- We provide ongoing support and maintenance to keep your system running smoothly for years to come.
